

Mrs. KP's Conditioning Project (80 points)

You are to condition yourself, a pet, or a willing participant. Every aspect of this project must comply with the APA ethical guidelines. Failure to do so will result in no credit.

Your project must include a typed brochure done on word , pages, or draw it yourself and will include all of the following:

(10 points)

Intro

Which type of conditioning did you use (classical or operant)?

- Summary of your conditioning project (be specific, minimum of a paragraph, 5-8 sentences)

(60 points)

If you used Operant Conditioning answer the following in complete sentences:

- What was the baseline behavior?
- What was the target behavior? (be very specific)
- What types of Reinforcers were used and why?
- What type of reinforcement schedule did you use and why?
- Why didn't you use punishment?
- How did you shape through successive approximations?
- How did you prevent against response generalization?

• If you used Classical Conditioning answer the following in complete sentences:

- What were the UCS, UCR, CS, and CR?
- Why was time important in pairing the UCS with the CS?
- How did extinction, stimulus generalization, and spontaneous recovery play a role in your conditioning?

(5 points)

- Used graphics at least 3-5

(5 points)

- Visually attractive

• Bonus:

Make a video of the successful conditioning (must be playable in class to receive bonus) Up to 20 points.
